

Supported by a grant from Norway

*Dept. of Mathematics and Descriptive Geometry, VSB-Technical Univ. of Ostrava,
Dept. of Mathematics, Faculty of Education, Masaryk University in Brno,
Dept. of Mathematical Sciences, University of Agder, Kristiansand*

cordially invite you to the

6th Winter Workshop on History of Mathematics

Mathematics and society:

How mathematics contributes to the quality of life

When: 21 – 24 January 2016

Where: Tři Studně (Žďár nad Sázavou)

For: mathematics teachers and students, historians and philosophers of science, and others interested, but not explicitly listed above

WWW: <http://historiematematiky.webnode.cz/>

The meeting traditionally strives to support interdisciplinary debate and explore various approaches to history of mathematics. We would like to offer a view of mathematics as an indispensable part of our culture.

Invited speakers

Jakub Rákosník (Department of Social History, Charles University in Prague)

Reinhard Siegmund-Schultze (University of Agder, Norway)

If you intend to participate, send a note to jan.kotulek@vsb.cz by **30 November 2015**, preferably including the **title** and **abstract** of your talk. Abstracts received by 15 January 2016 will be included in the pre-conference booklet. After the conference, we intend to publish a thematic issue of a journal.

Looking forward to seeing you

Jan Kotůlek, VSB-TU Ostrava
Helena Durnová, MU Brno
Rolf Nossun, UiA Kristiansand
